

TIERED STANDS: assembly instructions

1- lay trays out flat	2 - fold in and up side/back flaps	3- fold up back flap
		
4- fold back flap over and lock into base	5- fold in side panels (they do not lock yet)	6 - fold in and up front/side flaps
		
7- fold up front panel	8 - fold front flap over and lock into base	
		
9- fold out base tuck under base flaps, front, back and side flaps	10 - START FROM THE BOTTOM: push the lock tab through the tray	11- lock the lock tabs onto trays
		
12 - place panels into eachtray	13 - finished	notes:
		When folding trays, if you apply firm pressure you get better looking fold lines
